

Magento Auto Account Creation while Guest Checkout User Guide

Compatibility:

Community Edition: 2.x.x.x

Installation

Step - 1 Check Permission

Make sure the “app” directory of your Magento store and all directory inside /app/ have full written permission.

Important Note: Change all permission back after installation.

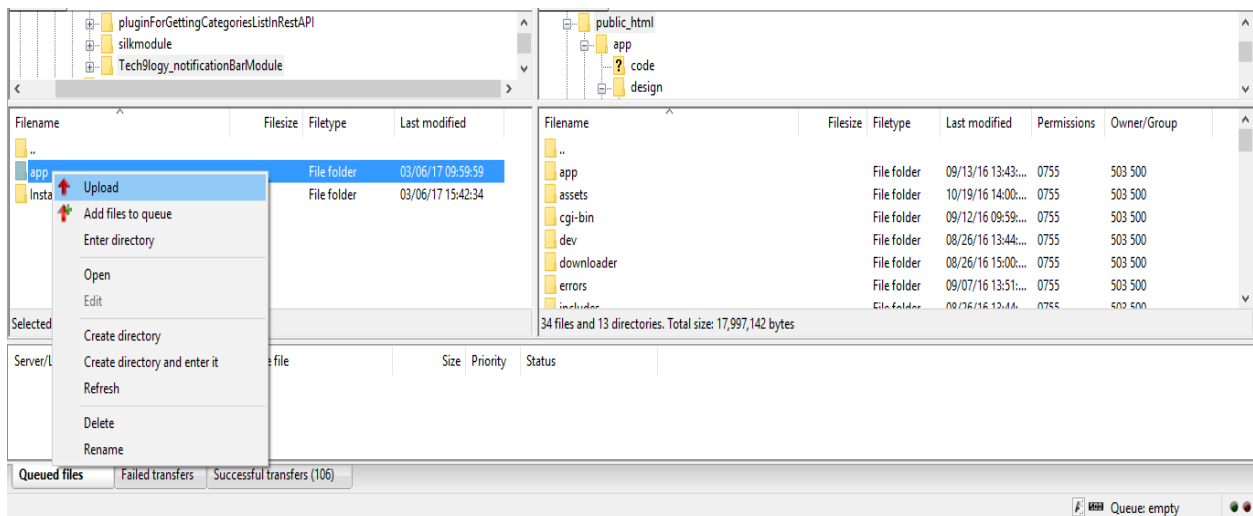

Step - 2 Disable Compilation

Log into Magento **admin panel** and go to **System -> Tools -> Compilation** and disable the compilation.

After Step 6, you can run the compilation process again if need.

Step - 3 Upload Files

Extract the downloaded Zip file and upload **App** folder from the extension package to the installation root directory of Magento.

Step - 4 For Enable This Plugin, Run these SSH Commands Under Magento Root Path

- php bin/magento module:enable Tech9logy_Guest
- php bin/magento setup:upgrade
- php -f bin/magento cache:flush

**** Now plugin installed & enabled sucessfully ****

if user do guest checkout then its account created automatically in magento and welcome mail will send to the customer.

Step - 5 if you want to disable this plugin, Run these SSH Commands Under Magento Root Path

- php bin/magento module:disable Tech9logy_Guest
- php -f bin/magento cache:flush

Note :- if you want enable again this plugin, Please go on step 4.

Thank - You.
